

Integrated Accounts Payable Automation

AP Express is a secure, cloud-based SaaS solution that dramatically reduces labor costs, while improving accuracy and visibility. Intelligent OCR and embedded “invoice training-as-a-service” eliminate the need for manual invoice data entry and coding. AP Express seamlessly integrates with your existing Oracle EBS system and shares the same look-and-feel. Implementations typically take as little as 30 business days.

SMART FUNCTIONALITY

AP Express provides a native integration with Oracle EBS. We’ve already done the hard work to establish and manage the exchange of data between systems. All of the underlying master data from Oracle EBS—suppliers, companies, business units, chart of accounts, purchase orders, receipts—are synchronized and available in AP Express.

INTEGRATED

- Master data such as companies, business units, charts of accounts, sub-ledger data, etc. updated in AP Express
- Match to purchase order and receipt data Oracle EBS
- View invoice images in Oracle EBS
- Utilize data from Oracle EBS and AP Express for reporting and analytics

FLEXIBLE

- Utilize the AP Express approval workflow or your existing Oracle EBS workflow
- Multilingual user interface
- Configure AP Express to work with your business process
- Optional Supplier Portal allows suppliers to submit invoices and manage inquiries on their own

MOBILE

- Approve, code, and upload invoices right from your iOS device
- View invoice images and related details
- Respond to notifications directly from the mobile app
- Invoice image capture via mobile app

USER INTERFACE

- Developed to mirror the look and feel of EBS
- Express Fields: Data entry fields for customized data collection
- Highly intuitive user interface. Training takes less than a day.

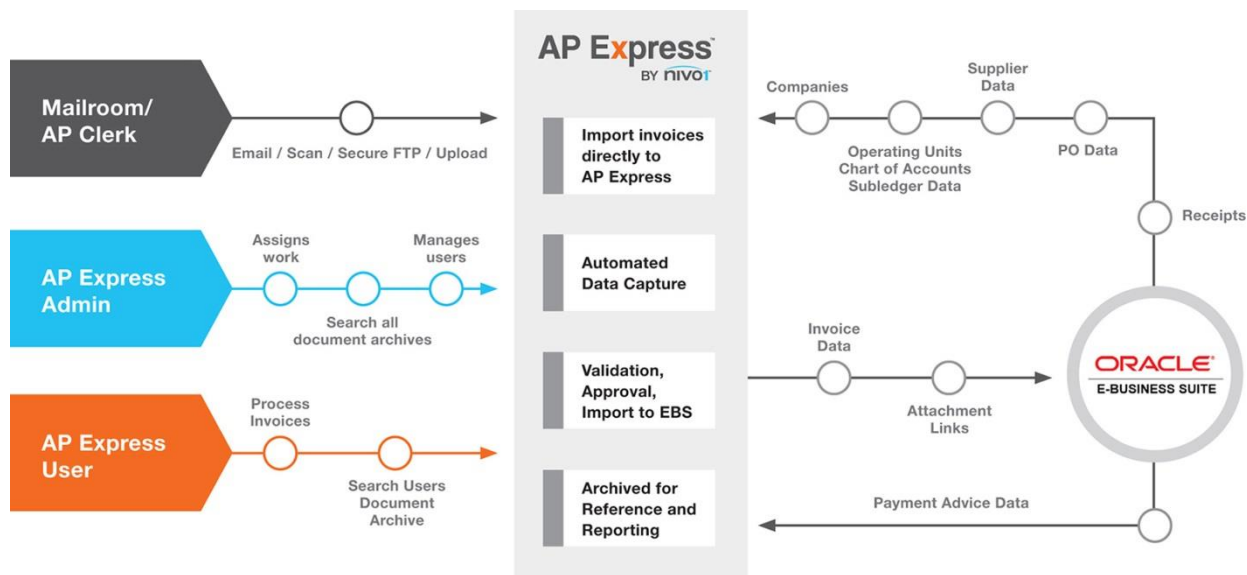

SECURE

- Data is encrypted at rest
- Transactions occur over a secure connection
- Configurable password usage options
- User-level, operating unit security
- Available Active Directory integration

AP Express Functions as an Extension of Oracle EBS

AP Express was designed and built by experts in Oracle EBS. Collectively, our team has over 60 years in Oracle EBS financial and accounting software. AP Express is able to automate invoice processing, approval, and reporting without making modifications to an Oracle EBS installation.

Native integration enables us to leverage Oracle EBS infrastructure, standard business processes, and terminology already familiar to your users. We even designed the AP Express user interface to make it easy for users accustomed to the Oracle EBS UI.

AP Express is seamlessly integrated with Oracle EBS, delivering real-time data exchange and up-to-the-second visibility of financial transactions. It understands the business rules, routines, and validations of your ERP system, enabling your users to process invoices faster and more accurately.

Contact Nivo1 Today to Learn More About AP Express for Oracle EBS

With AP Express, your AP process can be automated in 30 business days or less. AP Express runs securely in the cloud. No hardware or software is required. Contact us for a demo today!

AP Express is a secure, cloud-based SaaS solution that reduces labor costs while improving accuracy and helping you manage cash more efficiently. Embedded machine learning and rules-based algorithms speed processing and improve accuracy with every invoice, while built-in analytic dashboards track every step of the process and pinpoint opportunities for improvement. AP Express seamlessly integrates with your existing ERP system. Implementations typically take 30 business days or less.
