

## Integrated Accounts Payable Automation

AP Express is a secure, cloud-based SaaS solution that dramatically reduces labor costs, while improving accuracy and visibility. Intelligent OCR and embedded “invoice training-as-a-service” eliminate the need for manual invoice data entry and coding. AP Express seamlessly integrates with your existing PeopleSoft system and shares the same look-and-feel. Implementations typically take as little as 30 business days.

### SMART FUNCTIONALITY

AP Express provides a native integration with PeopleSoft Financials. We’ve already done the hard work to establish and manage the exchange of data between systems. All of the underlying master data from PeopleSoft—suppliers, companies, business units, chart fields, purchase orders, receipts—are synchronized and available in AP Express.

1

Email / Scan /  
Secure FTP /  
Upload invoices  
directly to AP  
Express

2

Automated  
Data Capture

3

Validation,  
Approval,  
Import to  
PeopleSoft

4

Archived for  
Reference and  
Reporting

#### INTEGRATED

- Master data such as companies, business units, chart fields, sub-ledger data, etc. updated in AP Express
- Match to purchase order and receipt data from PeopleSoft
- View invoice images in PeopleSoft
- Utilize data from PeopleSoft and AP Express for reporting and analytics

#### FLEXIBLE

- Utilize the AP Express approval workflow or your existing PeopleSoft workflow
- Multilingual user interface
- Configure AP Express to work with your business process
- Optional Supplier Portal allows suppliers to submit invoices and manage inquiries on their own

#### USER INTERFACE

- Developed to mirror the look and feel of PeopleSoft
- Highly intuitive user interface. Training takes less than a day.

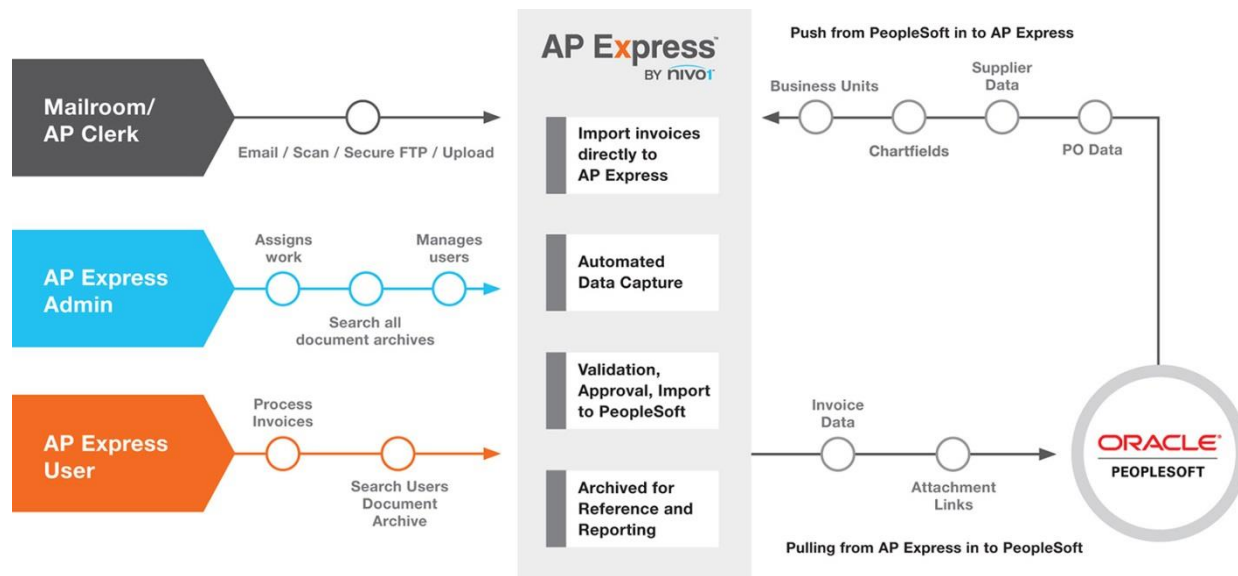

#### SECURE

- Data is encrypted at rest
- Transactions occur over a secure connection
- Configurable password usage options
- User-level, company, and business unit security
- Available Active Directory integration

# AP Express Functions as an Extension of PeopleSoft

AP Express was designed and built by experts in PeopleSoft. Collectively, our team has over 15 years in PeopleSoft financial and accounting software. AP Express is able to automate invoice processing, approval, and reporting without making modifications to a PeopleSoft installation.

Native integration enables us to leverage PeopleSoft infrastructure, standard business processes, and terminology already familiar to your users. We even designed the AP Express user interface to make it easy for users accustomed to the PeopleSoft UI.

AP Express is seamlessly integrated with PeopleSoft, delivering near real-time data exchange and up-to-the-second visibility of financial transactions. It understands the business rules, routines, and validations of your ERP system, enabling your users to process invoices faster and more accurately.
